- Canadian citizenship
- Proficiency in English (TOEFL score or equivalent of 580 or higher for non-native speakers of English)
- No substantial recent U.S. experience

Why Study and Pursue Research in the United States?

- Interesting cultural opportunity
- World-class universities and advanced research networks

Fields or Study/Research

The 18 eligible fields include:

- Aeronautics and astronautics and astronautics/aeronautical engineering
- Agriculture (theoretical or research-based focus only)
- Astronomy/planetary sciences
- Biology
- Biomedical engineering
- Chemistry
- Computer sciences/engineering
- Energy
- Engineering (electrical, chemical, civil, mechanical, ocean, and petroleum)
- Environmental science/engineering
- Geology/earth and atmospheric sciences
- Information sciences and systems (engineering focus only)
- Materials science/engineering
- Mathematics
- Neurosciences
- Oceanography
- Public health (theoretical research focus only)
- Physics

Services to Successful Science and Technology Students

- A program officer at Fulbright Canada is available to answer any of the student's questions about the program either before or during their time abroad
- The IIE will be responsible for placements and will work closely with the recipients to ensure the best placement available for field of study and research interests
- Services are provided to obtain the necessary documentation for a J-1 visa

Application process

- An online application includes a completed application form, a clearly written research objective, a professional resume or curriculum vitae, three letters of reference (submitted electronically and attached to the online application or official paper copies sent to Fulbright Canada by mail), transcripts scanned and attached to the online application (official paper transcripts must also be sent to Fulbright Canada by mail), score reports (GRE, and TOEFL or IELTS for non-native speakers of English) be provided no later than mid-August
- It is highly recommended that a GRE General Exam score report be provided as soon as possible as it appears that no tests will be available in certain regions in July, August and September 2010.
- Applications are available online as of February 1, 2010 at <https://apply.embark.com/student/fulbright/international> and must be submitted online no later than May 31, 2010
- Applications and all supporting documents must also be mailed directly to Fulbright Canada and postmarked on or before May 31, 2010
- Questions can be forwarded to info@fulbright.ca

Selection Process

- Approximately 45 awards will be granted worldwide for candidates who demonstrate unique aptitude and innovation in scientific fields.
- Each country may nominate up to two principal nominees and one alternate nominee.
- All applicants will be notified of the status of their application by late July 2010.
- Applicants are normally notified of the final decision by April 15<sup>th</sup>
- Principal and alternate candidates in worldwide competition will be notified by mid-October 2010.
- Fulbright Canada recognizes that excellence is found in all linguistic, ethnic and religious groups without regard for gender, age, sexual preference or race, and encourages applications from all interested and eligible candidates
