

SAINT MARY'S
UNIVERSITY SINCE 1802

**CAREER
SERVICES**

One University. One World. Yours.

Career Counselling • Assessments • Career Development Centre

Career Services is very pleased to announce that they have partnered with the Saint Mary's university Alumni Office to extend services to recent graduates. Starting in September of 2011 all alumni (within two years post graduation) will be able to access career counseling and job search support. It is very common for career questions to arise six to twelve months after graduation. Thanks to the Alumni Office we are able to work with you, our alumni, for longer periods of time in an attempt to help answer questions surrounding your career.

So, if you have graduated within the last two years and need help with your next step, please give Karen Morash a call at **902-420-5761**, drop in to see her on the 4th floor of the Student Centre or email her at career.services@smu.ca to see how we can help you. You can also drop by our website, www.smu.ca/careers to view our many services and resources.

We look forward to working with you,

Donnie Jeffrey
Manager, Career Services
Saint Mary's University
