Wireless Connectivity for Macintosh

Saint Mary's University is continuing to expand the wireless network on campus. For an up-to-date listing of wireless hotspots, visit: www.smu.ca/itss/wireless.

You Must:

1. Abide with Saint Mary's Technology Use Policy to use the wireless internet access
2. Have a Saint Mary's University user account (s#)
3. Have a laptop with a Wireless card
4. All current Apple updates installed

Getting Started:

You will have to set up the network configuration on your laptop to access the wireless network.

The following step-by-step instructions will guide you through the rest of the setup process.

STEP 1

Click on the airport icon in the top right corner of your screen and select Other...

STEP 2

For the Network name, type in “SMU_PUBLIC” without the quotation marks. Change the Wireless Security to **WPA2 Enterprise**. Type in your s# for the **User Name** and then type your password and click **OK**

STEP 3

After a moment, the message below will appear. Click Continue and the Airport icon will indicate that it is now connected.
