

PREPARING FOR YOUR FUTURE...

Many students work various part-time jobs while attending school. At Fastenal, students can gain real world experience working part-time with the possibility of obtaining full-time employment within their field after graduation.

Fastenal began in 1967 with a single store and has grown to become the largest fastener distributor in the nation. Due to our continued growth and the philosophy of promoting from within, opportunities for advancement will continue to become available. Fastenal offers part-time sales or distribution opportunities that offer flexible schedules, fast paced work environment, and real world job experiences.

Fastenal's promotion from within philosophy benefits many of our part-time employees. Last year, over 1200 part time employees were promoted to full time positions.

WHO IS FASTENAL?
