July 16–20			
July 23–27			

SMU Mini U camp is open to campers aged 8–14 with age appropriate subject class levels. Mini U is a fun way for campers to explore and become more comfortable in the University environment and encourages the development of social and leadership skills.

Campers are presented with an opportunity to creatively engage with each subject by attending daily interactive classes which consist of experiential learning and hands-on activities.

Past subjects have included:

- Chemistry
- Criminology
- Physics
- Sociology
- Astronomy
- Physical Education
- Psychology
- Biology
- Anthropology
- Canadian Sport History
- Business & Entrepreneurship

Subjects vary each year.

In addition to interactive academic classes, campers participate in daily recreational activities in order to promote a healthy and active lifestyle.

Campers are also provided with the unique opportunity to go on various educational off site trips which allow them to develop a greater relationship with the community.

Past off site trips have included the Museum of Natural History, orienteering at Point Pleasant Park, sailing on the Tall Ship Silva. The RCMP also conducted an anti-bullying and cyber crime prevention activity with the campers.
