Crane Wood Stookey

Format | Online/In-class

Fee | \$2,625

CERTIFICATE OVERVIEW

Our world is in a constant exponential state of change, and these changes affect all aspects of our lives including the workplace. In recent years we have seen long standing traditional structures fall and new organizations soar. The idea of how, when and where we work are being questioned. An organization's ability to adjust to the constant ebb and flow of the world around it, aid its success in an ever-evolving environment. They need to increase the use of the talent they have, develop their employees to handle increases in responsibility, as well as allowing them to make more decisions. While hierarchy and structure are still needed, an attitude of agility should be part of any organizations strategy to succeed. Participants will have the opportunity to challenge their current beliefs and learn new ways to approach their organizations to adapt to consistent change.

In the *Certificate in Agile Workplace Development*, you will discover the challenges and windfalls of cultivating the agility of your workplace. *Participants must complete all seminars, within a two-year period.*

Courses remain online for Fall 2022 - Winter 2023 (9 am - 1 pm Atlantic time).
