

The Co-operative Management Education Co-operative (CMEC) ensures that the activities of the International Centre for Co-operative Management (ICCM) at Saint Mary's University respond to the real business needs of co-operatives, credit unions, and mutuals. Through engagement as a CMEC member, you demonstrate commitment to the power of co-operatives; inform education and applied research; and pass benefits along to your own members, staff, and Boards. ICCM is your resource – you get to maximize and share those benefits and influence what ICCM looks like.

USE ICCM AS YOUR GO-TO BUSINESS RESOURCE

- Commission business-insight research
- Improve retention and succession planning by enrolling staff, Board and members in ICCM programs
- Give your staff a unique professional experience by enrolling them in ICCM programs

SHARE YOUR EXPERTISE

- Share your challenges and successes – your case studies help drive education and research based on real-life co-operative practice
- Host a course or event
- Co-host a webinar with us on topics such as co-operative compensation, innovative governance, or diversity and equity in co-operatives

PROMOTE AS AMBASSADORS

- Share information about ICCM with your colleagues, Board, and members
- Consider enrolling your own staff in ICCM programs
- Put us in touch with your Training / Development Director
- Mention ICCM and its work at workshops or conferences, in newsletters, and on social media

FUND & FUNDRAISE

You – CMEC – created ICCM and brought it to Saint Mary's. Contributions to CMEC allow us to ensure that this resource remains accessible and pertinent to the sector

- Donations to the ICCM Education and Research Fund ensure the sustained relevance of all our activities
- Donations to the Education Bursary ensure access for the next generation of co-operative leaders

“Co-operative management education is crucial to the success of organizations just like yours. Your contributions, small or large, to CMEC will help ICCM deliver even more value to you, your members, the wider co-operative movement, and society.” - CMEC Board of Directors
