CNIB passionately provides community-based support, knowledge and a voice to ensure Nova Scotians who are blind or partially sighted have the confidence and skills to fully participate in life. Our work – and our impact – takes many forms. Through Vision Loss Rehabilitation Canada, a new health services organization operated by CNIB, we provide personalized rehabilitation services designed to enhance independence, safety and mobility after a loss of sight. Meanwhile, CNIB's other community-based services empower Canadians who are blind or partially sighted to lead rich, full lives, and move us toward a more inclusive world.
