I would like to begin by recognizing that the land upon which we work, live, and gather, is Mi'kma'ki, the traditional and ancestral homeland of the Mi'kmaq People. I acknowledge that the Mi'kmaq People are the past, present and future caretakers of this land.

As settlers, our relationship with the L'nu is based on the Peace and Friendship treaties initially signed between the Mi'kmaq Nation and the Crown.

We honor our responsibility as Treaty People and commit to working in partnership with Mi'kmaq peoples and communities to foster a more equitable province.

In Nova Scotia, we recognize, We are All Treaty People.

PRIORITIZING

Healthcare & Construction

Nova Scotia is receiving an unprecedented volume of applications from candidates and employers in all sectors.

In 2024:

- 73% of total landed immigrants in Nova Scotia were through provincial immigration programs; directly attached and already contributing to the labour market and economy.
- 90% of approved applications were for temporary residents already living and working in Nova Scotia.

Focusing on these two areas will enable us to address the critical labour needs more effectively in our communities and help to support Nova Scotia's growth and the successful settlement of newcomers.
